Survey and Data Manager

Paths 4 Everyone

Can you help?

Would you like to see the market towns of Malton, Helmsley, Kirkbymoorside, Pickering and back to Malton connected by a Path 4 Everyone?
It is a path for wheelchair users, walkers, pushchairs, cyclists of all ages, cycles adapted for disability, mobility scooters, horse-riders and runners. It is about improving the Health and Well-being of our community. It will support our local economy, reduce our carbon footprint and provide safer, easier and greener connectivity between our Towns and Villages.

We are looking for a Survey and Data Manager to design and carryout community surveys which would help access the need for the P4E, analyse path usage based on our path counter landscape and identify new counter locations. This fundamental data is used to support the need for the path to the wider community and to support funding application.

If you can spare an couple of hours a week to help the project, please get in touch and we can share more details.
